How did OH-LA come about?

Cheryl Stroud (DVM, PhD) - USA
 Executive Director, One Health Commission

Narrative: " In November, 2018, just before One Health Day, Daniela Figueroa reached out to the One Health Day Planning Team offering to serve as a One Health Day Regional Spokesperson for the Spanish world. She had communicated with Dave DePooter at the One Health Platform, one of the partner organizations that created One Health Day with the One Health Commission and One Health Initiative. When Dave shared the good news with me I reached back to Daniela to do what I usually (connect One Health advocates) introducing her to Christina Pettan-Brewer and a few others. In the process, I suggested that they might want to form a One Health Latin America (OH-LA) group to help One Health researchers, advocates and leaders across Latin America and the Caribbean find and get to know each other and to help the world become aware of all that is going on in Latin America for One Health. So it's likely all my fault! " Cheryl
